

Caring for  
people at  
home is  
what we  
do best.

#### ABOUT VNA HEALTH GROUP

Since 1912 Visiting Nurse Association Health Group has been dedicated to bringing high quality clinical care to the residents of New Jersey. VNA Health Group is a voluntary, nonprofit organization and the state's premier Medicare/Medicaid-certified provider of home health, hospice and community-based care. With over 1,700 healthcare professionals, VNA Health Group provides services to more than 120,000 individuals each year.

HOSPICE CARE

THE FUTURE  
OF HEALTHCARE.

Visiting Nurse Association Health & Hospice

The future of healthcare. **Delivered.**

“Dad always did everything he could for us. Now it’s our turn to care for him.”

At VNA Health Group we believe that life is a journey and that end of life is an important part of that journey. Guided by a team of specially trained healthcare providers, VNA Health Group hospice patients and their families receive a special kind of care – care that focuses on comfort, support, dignity and the highest quality of life supported by family and friends.

### Advanced, Compassionate Clinical Care

The VNA Health Group Hospice Program is dedicated to providing compassionate, skilled care to patients with life-limiting illnesses. Through an interdisciplinary team approach, services may include:

- Nursing Care
- Medical Social Work
- Certified Home Health Aide Care
- Physical and/or Speech Therapy
- Symptom Management
- Spiritual Counseling
- Bereavement Support
- Specially Trained Volunteer Support

### Enhanced Support

Services are available around the clock, including weekends, in order to support both the patient and family during this emotional time. The nurse case manager will arrange for needed medications, supplies and medical equipment. Respite care is also available to families.

Always seeking new ways to increase patient comfort, VNA Health Group offers complementary therapies aimed at helping patients and families reduce stress and obtain a sense of calm.

Complementary therapies include:

- Massage
- Music
- Pet
- Reiki

In addition, VNA Health Group offers bereavement counseling for families, friends, and children who have lost a loved one.

### Insurance Coverage

VNA Health Group hospice services are open to patients of any age, faith or illness. Most insurance plans including Medicare and Medicaid cover hospice care. In keeping with the VNA Health Group philosophy, services are available for eligible patients regardless of their ability to pay.

### Reliable, Prompt Customer Service & Support

Whether you are a patient, family member, physician or care manager, one call to 800.862.3330, day or night, puts you in touch with an experienced healthcare professional that will evaluate your needs and arrange for services to begin.

- 24/7 Availability
- Patient-Family Centered Care Approach
- Medicare, Medicaid and most other insurance accepted

### WHEN IS IT TIME TO CALL?

VNA Health Group hospice services are open to patients of any age, faith or illness. You may want to consider hospice care when:

- **medical curative treatments are no longer an option or no longer desired**
- **patient desires symptom management and comfort care**
- **patient wishes to remain at home**
